

Dallas/Fort Worth (DFW) Collaborative Aviation Forecast Study (DCAFS)

LEAD AGENCY/POINT OF CONTACT: DOC, Mark Andrews, National Weather Service, Aviation Weather Services Branch, 301-713-1726 x109, Mark.Andrews@noaa.gov

TRAINING POINT OF CONTACT: Paul Witsaman, Regional Aviation Meteorologist, Southern Region, 817-978-1100 x116, paul.witsaman@noaa.gov

PROGRAM/PROJECT DESCRIPTION: A collaborative DFW Terminal Area Forecast (TAF) used by Air Route Traffic Control Center (ARTCC) Traffic Management Unit (TMU) personnel. More consistent TAFs will enable TMU personnel to make better decisions concerning traffic management for DFW and within the National Airspace System. **STATUS:** This study has been completed and no further actions are planned. **Training is N/A for this program.**
