# WSR-88D Tropical Cyclone Operations Plan

09/22/2005

- This plan is designed to be used as an *operational reference*. Although the basic plan as presented here has been shown to be effective in many tropical cyclone events, local modifications to the plan can and should be made as required. Be sure to consult with your local Unit Radar Committee (URC) in advance concerning any changes which result in system wide modifications. Pre-hurricane URC agreements will allow changes to be made operationally as needs arise.

# Highlights

- Purpose and Brief History of the WSR-88D TCOP
- Contents of the WSR-88D TCOP
- Major Problems Addressed  
During the 2004 & 2005 Hurricane Seasons
- Dissemination of WSR-88D TCOP and Notification of Changes
- Preview of 2006 TCOP Changes (to be posted in May 2006)
