

QUESTIONNAIRE I: CONSEQUENCE ASSESSMENT MODELS

SPECIFIC CHARACTERISTICS

PART C: TRANSPORT SUBMODEL TYPE

MODEL NAME:

Identify all applicable algorithms that treat the atmospheric transport component. Describe the model algorithm next to the appropriate type(s) listed.

1	Prognostic	
2	Deterministic	
3	Stochastic	
4	Frame of Reference	<input type="checkbox"/> Eulerian <input type="checkbox"/> Lagrangian <input type="checkbox"/> Hybrid <input type="checkbox"/> Eulerian-Lagrangian
