

2010 Space Weather Enterprise Forum

Closing Remarks

Samuel P. Williamson

**Federal Coordinator for
Meteorology and Chairman,
National Space Weather
Program Council**

Strengthening the Enterprise

Objectives

- **Share information** across the enterprise and **raise awareness** for new users, decision-makers, and policymakers

- Identify effective approaches to **raise awareness in the broader society**

- Identify effective approaches to **build resilience across society, particularly in critical infrastructure protection and support**

- **Improve communication** within and external to the enterprise

- **Collect information** to support a new National Space Weather Program Implementation Plan

Next Steps

- **Prepare brief summary report**
 - Summarize key results of the forum
 - Document action items
- **Address actions identified**
- **Analyze results and feed them into the National Space Weather Program and, in particular, the new Implementation Plan**

Post-Forum Information

- **Forum materials will be available online**
 - **Abstracts and biographies book (updated)**
 - **Final agenda**
 - **Summary report**
 - **Presentations**
